

Pearl Chemicals Limited – Key Products

ACETIC ACID 80% TECH

Textiles, pigment and dye production.

ALUMINIUM CHLORIDE 50% SOLUTION

Effluent treatment, manufacture of pigment and dyes. Catalyst in road / water proofing mixtures.

ALUMINIUM SULPHATE

Water treatment coagulant. Paper sizing agent.

AMMONIUM PERSULPHATE

Bleaching / oxidising agent. Electroplating.

BENZOTRIAZOLE

Industrial corrosion inhibitor, water stabiliser, oil antioxidant, chemical precursor.

BROMINE TABLETS (BCDMH)

Water treatment.

HYDROCHLORIC ACID

Pickling, cleaning etc.

OLEUM

Chemical reactions. Sulphonations. Dehydrating agent. Explosives

PERACETIC ACID

Hygiene sterilisation in breweries, dairies and food areas. Also, water treatment, bleaching of paper, pulp textiles, oils and fats. Epoxy resins and Epoxides.

POTASSIUM PERMANGANATE

Oxidizer, disinfectant, deodorizer, bleach, dye, tanning.

SODIUM ACETATE ANHYDROUS

Food buffer, chemical synthesis, metal finishing chemicals, de-icer.

SODIUM ACETATE TRIHYDRATE / HYDRATE

Buffer in pigment and dyestuffs manufacture, also textiles and dyes, photography and metal finishing chemicals.

SODIUM BROMATE

Chemical synthesis, textile auxiliaries, analytical reagent, hair preparation.

SODIUM BROMIDE

Photography, water treatment chemicals and general chemical formulators.

SODIUM FORMATE

Production of Sodium Hydrosulphite, production of Formic Acid, leather tanning, enzyme stabiliser in detergents, agricultural chemicals.

SODIUM HEXAMETAPHOSPHATE

Water treatment, metal finishing, pigment and dye production fertilizers, trace elements for agricultural products.

SODIUM MOLYBDATE

Water treatment, metal finishing, pigment and dye production fertilizers, trace element for agricultural products.

SULPHURIC ACID 96%

Chemical reactions, pickling etc.

WE OFFER SOLUTIONS OF MOST SOLID PRODUCTS, ALSO TOLL MANUFACTURING, REPACKING, GRINDING, BLENDING ETC., AND THE PURCHASE OF SURPLUS CHEMICAL STOCK.
